

November 15, 2016

Dear Friend,

For the past 33 years, we've partnered with folks just like you to make sure that everyone in Santa Fe has an opportunity to go to our extraordinary college. Many students — whether starting out or starting over — worry about how they will manage studies along with a life complicated by work, financial and family obligations. Under the best conditions, getting ahead is a challenge. But trying to get ahead under financial strain can be impossible.

You can open the doors of opportunity and prosperity for hard-working students. Last year alone, over 950 career certificates and/or degrees were earned by students who were improving their lives, their children's lives, and our community. With each dollar, you clear the path for those who seek a brighter future.

This year, the Foundation will match your gift up to \$100,000. With each donation, you enable us to support more students. Please consider Santa Fe Community College in your year-end giving. By giving \$25, \$50, \$100 or \$1,000 — whatever amount you can — you can double your gift and open the doors to education and opportunity for a student in our community.

Together we can change lives.

We know you share our conviction that nothing is more important to the success of an individual than education. Please take a moment now to send your gift. You may use the enclosed envelope or donate online at www.sfcc.edu/foundation. We are grateful for your generous support.

Sincerely,

Mr. Randy W. Grissom
President
Santa Fe Community College

Mr. Richard A. Abeles
President of the Board of Directors
Santa Fe Community College Foundation

P.S. Your generous gift will help open doors toward well-paying careers, by making scholarships available to hard-working young adults who otherwise simply cannot afford to attend. Many are the first in their family to get a college education.

**Help our students
achieve success.**

“Opportunity for me has been fighting for my dream of becoming a nurse. I knew right away that I was going to find a home at SFCC.”

— Daysi Romo

“The SFCC Foundation helped to make my lifelong dreams into a reality.”

— Kyle Pacheco
